

Region Report – Quarter 1 - 2015

Q1 A new quarter is starting and Asia Region proudly welcomes Alan Cooke as the Regional Membership Manager(VATASIA3). The first quarter of 2015, is the starting of a new exciting year for Asia. VATSEA Division is developing and currently looking for a new TD to enhance the members training. VATROC, VATPRC, VATKOR and VATJPN are developing, with the last two having a new site and for once more, organizing special events crowding the skies of the Region and offering the community a great online experience. VATWA has been also active with events and group flights. Also organizes with the assistance of partnering VA's and neighbouring vACC's, for a second time, one of the greatest events Cross The Border (CTB) involving many surrounding airports, many VA's as well as neighbouring vACC's.

We can clearly see the traffic volume to increase and ATC activity to take place regularly. This is to congratulate all the Divisions and members for their hard work and dedication.

Membership and member retention receive attention in all Divisions. In addition members joining/transferring, receive welcome emails with all necessary information on Regional level.

Division VATPRC - Division Director: Yu Xiong (1191126) Q1 2015

Member Retention	N/A					Division membership growth is as usual but imperfect SSO login system seriously affect activity of division members in the forum. Regarding the number of registered and experienced controllers in division, it has been significantly improved. In the meantime, we are considering to recruit one more division staff.
ATC Training		QTD	YTD 12	YTD 11	Var (%)	In this term, we have promoted 2 ATC students to be APP level, and 8 ATC students to be TWR level, and no ATC students were promoted to be CTR level. In addition, the numbers of members applied to ATC has slightly increased in this term.

Pilot Training	N/A					No progress in this term
Operations	Since we have formed a robust team which mainly focus on organizing the event, we have held many successful events which attracted not only division pilots but also my pilots from other divisions. The event posters have been promoted on the headline of VATSIM website many times. China Tour 2015 is finalizing and will start on following May. Next, we will recruit one more divisional staff and confirm the concentration point in the next term.					
Events	In this term, we continued organizing various events on every Saturday, including two events with Pakistan vACC, one event with Hong Kong vACC, and one event with VATJPN. In the next term, we will try to organize more events with Divisions/vACCs that we rarely organize event with.
