## Indonesia VACC

Indonesia VACC had 3 CPT examinations in the past 3 months. Hoo Jiong Sheng assumed the role of Training Director in Indonesia VACC.

## Hong Kong VACC

### Events

Hong Kong's policy is to hold events on alternative weeks with training sessions in between. Hong Kong has been successful in hosting regular events with Taiwan, PRC and South East Asia.

### Training

Hong Kong's training team is now using SWEATBOX for granting solo rating for tower and below.

## Malaysia VACC

For Malaysia VACC, there are no major changes up until April. We only have one new controller. The domain for our website myvacc.org has expired and there are no success when trying to get back to the owner of that domain. We have decided to just start a new website from scratch. The new domain will be vatmy.org. There will be no further controller intake until the new website is finished.

Now regarding the Solo Validation process, we are going to restructure everything soon. From the recruitment to training and promotion. For now, the process will remain the same as before.

## Philippines VACC

Philippines VACC hosted the twilight event with Singapore VACC in the previous few months.

They are looking to increase activity in the current months while the students have holidays.
