

VATSIM ASIA REGION REPORT Q3/2018

Executive Summary

VATSIM Asia is reporting a stable Q3,2018 with increased activity on pilot and ATC participation, both from previous Quarter and also from Q3 2017. A key role to this is the regular events organized by all Divisions within the Region and online training for Pilots and ATC. There have been efforts to bring Nepal vACC to life the last months with good results. VATWA operates under new management and is now recruiting staff for the Divisional panel and for India vACC. Rest of vACCs are doing good with Pakistan vACC to lead activities. New Division Director of VATKOR is doing great. VATJPN has new rated pilots and continues with beginner events to welcome new members. There have been 7 events in total. VATKOR also with total 9 events(2 International, 7 Domestic) . VATROC has more ATC trainees and continues the frequent city link with HKvACC. All Divisions actively participate online and show presence uniting the local communities.

Members receive member retention and assistance in a timely manner, on Divisional and Regional level.
