

Quarterly Report to the Executive Committee Q4 2012

Another busy quarter had past which bring us to the end of this great year for South America.

Featuring VATSUR, some staff changes took place in order to give focus on ATO development. We are looking forward to see the first Spanish ATO certified over the next quarter.

The last half of the year went through with great events and a lot of engagement from our ATC and pilot members. VATSUR is also working hard to improve the events platform and to collaborate with the GRP amendments with a trial of S3 to C1 CTR solo training.

I will like to take this time of celebration to thank every member of South America for joining us and specially for those staff members (we are over 40 people) for their commitment representing our region on a daily basis!

Up next, our regional membership statistics and divisional reports.

Thanks for choosing VATSIM South America!

Daniel Abellá

Regional Director, VATSIM South America Region.

4TH QUARTER REPORT 2012

STAFF

Our ATC Training Director, Agustin Miglino, has resigned his duties and we are now in the process of searching for new candidates. Juan Cabral has joined the team as Pilot Training Director who will be responsible for developing the ATO for our division.

TRAINING

We are reviewing all the courses and examinations of our training center to be able to make it more efficient, educative and professional possible. In addition we are developing an operative manual to standardize all the procedures of the division to avoid significant differences in services ATS of the different countries. We have improved our training management console, errors are eliminated and it has become much more effective than the last one.
